GasTerra response to Public consultation BBLC concerning CAM CMP

OPENBAAR

Dear Sir, Madam,

With reference to the public consultation regarding the proposed implementation of the Network Codes CAM and CMP on the BBL Interconnector, GasTerra B.V. (hereafter: 'GasTerra') hereby would like to give its opinion.

In the Consultation Letter parties are invited to answer six questions. Below the answers of GasTerra to each of the questions can be found.

1. Do you agree that the proposals are compliant with the Network Code on CAM?
Yes, we agree.
2. Do you agree that the proposals are compliant with the CMP Annex?
Yes, we agree.
3. Do you agree that the quantity of capacity to be set aside for short term auctions defined in section 2.3 is appropriate?
Yes, we agree.
4. Do you support single-sided nominations being accepted for unbundled capacity if the same entity owns the capacity on both sides?
Yes, we agree.
5. Do you agree that surrendered capacity that is not reallocated in an auction is not automatically rolled forward to future auctions?
Yes, we agree.
6. Do you have any other feedback on the Concept Document?
GasTerra is of the opinion that CMP measures and procedures should be aligned between the TSO's on both sides of the IP.
