

BBL Firm Forward Flow Capacity

Available amounts in kWh/h per 8 January 2016

Period	Available capacity related to original BBL project	Available capacity related to expansion project	Total available firm forward flow capacity
01-12-2007 until 15-04-2011	0	0	0
15-04-2011 until 01-10-2011	0	3,106,152	3,106,152
01-10-2011 until 01-01-2012	0	2,186,631	2,186,631
01-01-2012 until 22-03-2013	0	1,906,631	1,906,631
23-03-2013 until 28-03-2012	0	0	0
29-03-2013 until 01-10-2013	0	1,906,631	1,906,631
01-10-2013 until 01-12-2016	0	725,954	725,954
01-12-2016 until 01-10-2022	11,234,375	419,448	11,653,823
01-10-2022 until 01-12-2022	14,555,375	419,448	14,980,375
From 01-12-2022	17,005,375	419,448	17,419,448

This overview is updated on a monthly basis. No rights can be derived from this overview.

The maximum technical capacity of the BBL pipeline related to the original BBL project was 17,005,375 kWh/h. The expansion project means that a fourth compressor has been installed. As a result the maximum technical capacity of the BBL pipeline has risen to around 20,600,000 kWh/h.
